

## TO RESTRICT DEBATE.

Resolution Offered Seeking to Expedite Business in the Senate.

MR. ALLISON, OF IOWA, FATHERS IT.

Would Have the Committee on Rules Ascertain What If Any Changes Are Necessary—Panama Canal Discussion.

Washington, March 11.—At the opening of the session of the senate Mr. Allison of Iowa offered a resolution which, he said, was proper at this time, authorizing the committee on rules to re-examine the rules of the senate with the view to ascertaining what changes, if any, are necessary, and especially to make inquiry whether it is expedient in any way limit debate in the senate, and if so to what extent. The resolution further provides that the committee is authorized to sit during the recess of the senate, and they are directed to submit a report to the senate of their conclusions as soon as practicable after the beginning of the session next December. The resolution was referred to the committee to audit and control the contingent expenses of the senate. Mr. Hoar (Mass.) explained the need of a manual of parliamentary law and said he would, at a later day, introduce a resolution directing the committee on rules also to consider this question.

The manuscript copy of the Cuban constitutional convention, the several orders and circulars of the department of Cuba, etc., were ordered returned to the war department.

The senate then, on motion of Mr. Cullom (Ill.), went into executive session.

The fight against the Panama canal treaty was continued by Senator Morgan, and he gained his first material concession from that body by securing an agreement to attach the Spooner act bodily in the treaty. This agreement was adopted in compliance with a request presented by Senator Lodge during the executive session of the senate, for the necessity of it had been discussed by Mr. Morgan and other members of the senate committee.

The Democratic senators are making an effort, under the leadership of Senator Gorman, to reach an agreement upon amendments to the treaty to be supported by them, and each one has been asked to give his views upon this point. So far substantial unanimity has been expressed in favor of a modification of article 23 so as to place the control of the canal in American hands. There is general complaint among the Democrats that the provisions of that article preclude the possibility of protecting the canal by American arms in case the necessity for doing so should arise. It is said, however, that no amendments will be offered by the Democrats as a party unless the support of all the Democratic senators can be assured in advance.

No Election School Board Members.

Columbus, O., March 11.—There will be no members of boards of education elected at the coming April election. The supreme court dismissed the motions for an alternative writ of mandamus filed by George B. Winters and Andrew Forsythe against Benjamin F. Fisher and the other members of the Republican committee of Steubenville. The motion was based on the ground that there was to be an election of members of the board of education, and that therefore names should be received at the primaries for that office. By overruling the motion the supreme court holds that members of boards of education are not to be elected.

Lady Granville Disappears.

London, March 11.—A sensational sequel has been furnished to the scandalous Gordon trial, which occupied the divorce court for three weeks, by the flight of Lady Granville Gordon with the child, Cicely, for the possession of which the suit was brought. In giving judgment Sir Francis Jouné, the presiding justice, so scathingly commented on Lady Granville's conduct that it was easy to guess what the verdict would be long before the justice wound up with ordering the child to be delivered to his father. Lady Granville left the court and went home. She has since disappeared, and Lord Granville declares he does not know her whereabouts.

Topeka, Kan., March 11.—A bill re-enacting the nuisance clause of the prohibition law, recently declared unconstitutional by the state supreme court, has passed both houses and was sent to the governor for his signature. The clause, which was one of the most important in the act, had, according to the court, been repealed by the Hurler law, a measure that grew out of the Carrie Nation crusade.

## BERIAH WILKINS STRICKEN.

Washington Editor and Former Ohio Congressman a Victim of Paralysis.

New York, March 11.—Beriah Wilkins, owner of the Washington Post, has been stricken with paralysis in the Waldorf-Astoria. He is unconscious and unable to recognize the members of his family, who had been summoned to this city. The attending physician said the life of Mr. Wilkins was trembling in the balance. Although they hoped he might recover, they admitted that the patient might pass away at any moment. Mr. Wilkins was a representative in congress from Ohio 15 years ago. With Frank Hatton, former postmaster general, he acquired possession of the Washington Post about 1890. Mr. Wilkins returned from abroad a month ago. He has been in ill health for several weeks. Mr. Wilkins is 57 years old. He was born in Ohio, and was formerly a banker in Uhrichsville, that state. He was an Ohio state senator in 1879.

The physician attending Mr. Wilkins said that his condition was very irregular, his left side being completely paralyzed and his temperature being less favorable. He said that Mr. Wilkins' case was aggravated by a kidney trouble. His age also was against him.

## Sugar Plant to Shut Down.

San Francisco, March 11.—The fine, large cane and beet sugar refining plant of the California and Hawaii Sugar company at Crockett, near this city, is to be shut down indefinitely. This means that between 300 and 400 men will be thrown out of employment and the town of Crockett will suffer a very serious setback. On the best of authority it is stated that the plant has been bought by the Spreckles Refining company for the sugar trust. R. P. Rithet, the president of the California and Hawaiian company, denies that it has sold out to the trust. He declares that selling conditions have not been satisfactory, though the plant has not been unprofitable.

## Jackson Day Banquet.

Chicago, March 11.—The Jackson Day banquet at the auditorium to be given by the Iroquois club on March 16 promises to be a notable one. The speakers who have consented to make addresses include Edward M. Shepard of New York, Senator Bailey of Texas, Congressman Dearmond of Missouri, Judson Harmon of Cincinnati, Judge J. H. Dickinson, representing Tennessee, the state of Andrew Jackson; Mayor Carter H. Harrison of Chicago. M. E. Ingalls, president of the Big Four railroad and candidate for mayor of Cincinnati, and Samuel Aischuer, the Democratic nominee for governor of Illinois at the last election.

## Lighthouse on Mile Rock.

San Francisco, March 11.—Under the direction of Captain Ballentine of the United States engineer corps a force of men has gone to Mile Rock, at the entrance to the Golden Gate, and begun the work of preparing for the erection of a lighthouse on the jagged peak. Since the days of the discovery of this bay Mile Rock has been regarded as one of the most dangerous obstructions to navigation on this part of the coast. The construction of a lighthouse will not only remove the element of danger from the rock's existence, but will serve as a guide to ships.

## Out on Strike.

New York, March 11.—Three hundred shipwrights, carpenters, joiners and calkers went on strike at the Townsend & Downey shipbuilding yard on Shooters' Island. The members of the union employed in other yards are not affected by the strike. There are now 575 men, formerly employed at the Townsend & Downey yard, on strike. President McCallum of the local union says that the strikers have been ordered to keep away from the yards of the company and to refrain from making any demonstration.

## Another Duellist Pardoned.

Berlin, March 11.—First Lieutenant Werner Von Granwert, son of the lieutenant general of that name who killed Dr. Ayre, a lawyer of Flensburg, in a duel on January 16, and who was sentenced by a military court to two years' imprisonment in a fortress, has been pardoned by an imperial cabinet order. The newspapers refer to Von Granwert's pardon as a "dispensation" and as tending to encourage all duellists. The duel occurred in pursuance to the findings of a military court of honor.

## Smelter Rates Advanced.

Denver, March 11.—The Denver office of the American Smelting and Refining company has authorized its agents to announce that the price paid at smelters for the lead in ore will be \$3.75 per 100 pounds. This is an advance of 25 cents per 100 pounds over the smelter rate for the whole of 1902.

## TRAGEDY AN ACCIDENT

Suicide Theory in the Pennell Case Discredited by the Police.

RIGID INVESTIGATION IN PROGRESS.

Officials on Guard at the Victim's Office and Home—Condition of Mrs. Pennell—Late Developments.

Buffalo, N. Y., March 11.—Mrs. Arthur Pennell, who, with her husband, was dashed over an embankment into the Gehres quarry, is still unconscious at the Sisters hospital in this city, and there is no hope of her recovery, according to attending physicians. Mrs. Pennell is suffering from a fractured skull and probably internal injuries. She has not been able to give any account of the events which led to the death of her husband and her own injuries.

Following 12 days after the murder of Burdick, the death of Pennell, who had been mentioned in the case, has given rise to all manner of surmises. Investigations by the police have brought little that is new to light. The Pennells left their home shortly before 5 p. m. It was raining, but the couple did not seem to mind this, and went out the Kensington road. The plunge of the automobile was seen by two young men, who say they saw Pennell's hat fly off. Then the machine swerved, and a short time later Pennell was picked up, with his skull crushed. He was dead, his wife lying near, unconscious. Pennell had made arrangements to meet a friend at his home later in the evening. A elgar man from whom Pennell purchased a elgar just prior to his death says Pennell did not appear in any way excited. With these facts in hand and no statement from Mrs. Pennell, the opinion is that the tragedy was an accident pure and simple, and the theory of suicide is given little credence.

A policeman is on guard at Pennell's office in the Austin building, and it is believed that the attorneys are now making a search of the papers and belongings of the unfortunate victim. It was also stated that a search is being made of the residence of the Pennells at 208 Cleveland avenue. It is known that detectives have been at the house since the tragedy.

The tragedy and the intimation of a deliberate intent to end his troubles directs renewed attention to the Edwin L. Burdick murder. Burdick was found Feb. 27, by his mother-in-law, Mrs. J. D. Hull, in his den in his home, with his head beaten in and his body covered with cushions. A picture of Mrs. S. T. Paine, wife of a dentist, was found in the room. Dr. Paine practices in Batavia, but his wife lives in Buffalo with a companion. Burdick had sued his wife for divorce and had named Pennell as co-respondent. Mrs. Burdick had entered a cross-hill, and these suits were pending at the time of the murder. Mrs. J. B. Warren of Cleveland, formerly of Buffalo, was divorced two months ago, and in a cross-hill named Mrs. Burdick. Mrs. Paine and Miss Marlon Hutchinson, formerly employed in Burdick's factory, were taken before the police, but nothing was found out regarding the murder. The Pennells, Warrens, Paines and Burdicks were on terms of great family intimacy for years.

Recently Mr. Pennell made the following statement: "About this case of Burdick. I have told the authorities I went away to New York before the murder and that I met Mrs. Burdick while I was away. In fact I saw Mrs. Burdick near New York two or three days before the murder of Mr. Burdick. I came home again Wednesday, the day before the murder. I have told it frankly and the meeting was a proper one. But they seem determined to drag all this business out in the papers. I would do anything to stop it."

Mrs. Pennell has been loyal to her husband through his trying experiences during the last 10 days. She frequently said that her faith in him was unshaken and that she would stick to him to the end.

## A Founder of Republican Party.

Chicago, March 11.—Samuel K. Dow, formerly one of the most prominent lawyers of the Chicago bar, and partner of Chief Justice Fuller, died at the residence of his son-in-law, Orrin L. Evans. Mr. Dow has been an invalid for nearly seven years. He was one of the founders of the Republican party and was active in the movement looking to Abraham Lincoln's first nomination. He was elected to the state senate in 1872, and later declined a seat in congress and nomination as lieutenant governor of Illinois.

The miners' strike in the Twelve Hole district, West Virginia, was declared off, all differences between the miners and operators being amicably settled.

## FINANCIAL AFFAIRS

Of the Metropolitan Street Railway Company to Be Looked Into.

New York, March 11.—Eugene A. Philbin, former district attorney of this city, was retained to look into the financial affairs of the Metropolitan street railway company and examine evidence and reports of accountants, with a view to the advisability of further proceedings. The examination of the company's books, which, it is alleged, furnishes the basis for Mr. Jerome's inquiry, was made by John C. Hertle. The report made by Mr. Hertle says that none of the company's annual reports to the railroad commission since 1894, in his opinion, have correctly described the company's true financial condition. He further declares that on June 30, 1901, instead of a surplus of \$5,403,465, as reported, the company actually had a deficit. President Vreeland's Metropolitan company issued a statement denying the charges.

## THROUGH TRACTION LINE

From Lake Erie to the Ohio River.

Mandelbaums Active. Cincinnati, March 11.—M. J. Mandelbaum of Cleveland secured the traction lines from Dayton to Piqua through Troy and other points on the Cincinnati, Dayton and Toledo traction system, and is at Hamilton arranging for through traffic to Findlay over the Western Ohio traction lines controlled by the Mandelbaum syndicate. The new traffic arrangement includes connection with Mandelbaum branch lines from Wapakoneta to Celina, St. Mary's, Minster and other points. Negotiations having failed for the purchase of the Toledo, Bowling Green and Southern traction lines, the Mandelbaum interests have decided to build from Findlay into Toledo via Fosteria, when their through traction lines from Lake Erie to the Ohio river will be complete.

## Knapp's Attorney Protests.

Cincinnati, March 11.—Attorney Thomas Darby of Cincinnati, who will defend Alfred Knapp, the wife murderer at Hamilton, has protested against the announcement of the attorneys of Joe Roth, who is on trial at Hamilton, charged with having assaulted the Motzer children, that they would place Knapp on the stand as a witness for the defense. Darby does not think this course proper, as Knapp will soon have to face a trial for his own life, and the attorney evidently believes that the attempt to make him a witness in the Roth case is inspired by a desire to force public confessions from him.

## Valuable Piece of Jade.

San Francisco, March 11.—A valuable piece of jade, looted from Peking during the Boxer trouble, has been found by customs officers in the baggage of an army captain whose identity is not disclosed. The jade is valued at \$2,400. The inscription on it was written 200 years ago and is a tribute from the reigning emperor to his predecessor. The army captain claims to have purchased it in China for \$50.

## Mad Mullah's Losses.

Aden, Arabia, March 11.—Advices received here from Obbia, Somaliland, say that during the recent fight between the followers of the Mad Mullah and the Abyssinian forces co-operating with the British the former lost 1,000 men. The Mullah, it is added, is maintaining his authority with ruthless severity, cutting the throats of male malcontents and mutilating women and children.

## Boys Play With Dynamite.

Buffalo, N. Y., March 11.—Five small boys lighted a stick of dynamite which they found in the northern part of the city. The explosive went off with terrific force. It is feared that several of the boys will die, while those that survive will be marked for life. Anthony Gerace, 5, and James S. Chloria, 8, will probably die.

## War Between Unions.

Chicago, March 11.—As a result of the strike of members of the National Alliance of Sheet Metal Workers, who are waging a war on another union in the same trade, 500 men failed to report for duty on jobs contracted for by 25 firms who are members of the Sheet Metal Contractors' association.

## Ames Denied Release.

Manchester, N. H., March 11.—The court has denied the application for the release of Dr. Ames. Exceptions were taken and bail of \$10,000 was furnished, pending the decision of the supreme court.

## Wholesale Drug Plant Scorched.

Portland, Ore., March 11.—Fire damaged the stock of Canning, Wallace & Co., wholesale druggists, to the extent of \$20,000 and partially destroyed the building occupied by the firm. The total loss is \$40,000, fully covered by insurance.

## Coal Mines Closed.

Victoria, B. C., March 11.—The extensive coal mines near Nanaimo are to be closed on April 1. This will throw 1,000 men out of employment.

## UPPER OHIO FALLING.

Danger of a Disastrous Flood Appears to Be Diminishing.

SITUATION GRAVE AT LOWER POINTS.

Rise at Evansville, Paducah and Cairo May Go to the Mark of '84—Outlook Along the Mississippi.

Washington, March 11.—The weather bureau issued the following special river bulletin:

"The Ohio river will probably rest at Evansville during the next 30 hours at something under 43 feet. At Paducah a stage of 46 feet is indicated within the next two days. At Cairo the rise will continue during the next two or three days at a decreased rate, reaching 50 feet and possibly slightly over. The lower Tennessee will begin to fall in two or three days, while the upper Mississippi will rise slowly. From Cairo to Helena conditions have become slightly more threatening since Tuesday. The rise is progressing at an increased rate, and 38 feet of water are expected at Memphis by Sunday or Monday. A stage of 39 feet is not improbable, and precautions should be taken for that stage. The levees are being patrolled and thus far remain in good condition. The White river has continued to rise rapidly, while the Arkansas is also near flood stage, and the effects of these waters will be felt in the main river within a short time. Below Helena the rise will continue steadily, and maximum stages will probably be reached as follows: Arkansas City 51 feet, Greenville 46 feet, Vicksburg 50 feet. The Mississippi below Vicksburg and the Atchafalaya will continue to rise for the next three or four weeks."

## Praying for Sunshine.

New Orleans, March 11.—The river is rising here very slowly. The gauge marked 18.4, a rise of only one-tenth in the past 24 hours. The stage is still over a foot under the record. The most unfortunate condition at present is the continuance of rainy weather. This is having the effect of softening the levees, and all Louisiana is praying for a return of sunshine. Six hundred men are at work at various points along the river front, sacking weak points and raising the line of embankments. Thousands of sacks of sand are being distributed along the river. The engineers report the levees between Southport and Carrollton in excellent condition and able to stand a much greater strain than they have thus far been subjected to.

## Patrolling the Levees.

Memphis, March 11.—The Mississippi river is rising steadily at this point, the gauge marking 35.2 feet. This is a rise of five tenths of a foot in the past 24 hours. It is believed that the river will reach a mark of 38 feet at Memphis. Reports from Mississippi and Arkansas indicate that the gravest apprehension prevails regarding the flood situation. In some districts armed sentries are patrolling the levees. All streams and rivers in Arkansas are overflowing. In North Memphis the flood has already begun encroaching at certain points, and it will take but a few inches more of water to render work impossible at many of the lumber industries in that section of the city.

## Cditions at Cincinnati.

Cincinnati, March 11.—The river here has been stationary at 49.3. The weather is cloudy and cooler. The local forecast official says the river will pass the 52-foot stage Thursday. It requires about 55 feet to cause any material disturbance of traffic. The Ohio is falling at Pittsburgh and rising from Wheeling down. The outlook now is that there will be no disastrous flood at Cincinnati.

## Levee Giving Way.

Caruthersville, Mo., March 11.—The old levee, the greatest danger point along the Mississippi, a mile and a quarter south of here, is giving, with the river showing a rise of four inches and rain falling heavily. The situation is grave. Government engineers regard it as the most critical flood point along the river. Four hundred men, under Engineer Kilpatrick, are building a new levee.

## Loss of Life is Feared.

Evansville, Ind., March 11.—Several shanty boats on the Wabash and Green rivers have been crushed in the flood, and loss of life is feared. Farmers about Mt. Vernon have fled from the high waters, taking their household goods and live stock. The stock has been taken from Diamond Island, the largest island in the river below Cincinnati.

## GREAT NORTH AND SOUTH TRUNK LINE SUGGESTED.

A recent issue of the Columbus (O) Press contains a long article advocating the construction of a railroad from Cleveland to Maysville, via Columbus, Hillsboro, Georgetown and Ripley, to connect with the L. and N. at this point and form a great North and South trunk line. The writer of the article, Mr. Olin J. Ross, a lawyer and member of the Board of Trade of Columbus, urges the L. and N. to take up this project and push it to completion. The line through southern Ohio would traverse a rich territory that is at present largely wanting in railroad facilities, and Mr. Ross believes the people adjacent to the route of the proposed road would grade the bed free of cost. Such a road was long ago suggested in these columns, and it is gratifying to see our Ohio friends awakening to its importance.

## ATTRACTIVE READING ROOM.

Brief Mention of the Valuable Books Now to be Found at the Y. M. C. A.—Good Place to Spend an Evening.

Since the addition of the "Contest Library" the Y. M. C. A. reading rooms are well worth visiting. At the request of Mr. Brown, the new Secretary, the writer wishes to call the attention of Maysvillians to three things found there:

Books—The library is small—only 358 volumes. Still it is well selected. There boys will find "Famous Tales," a set of ten volumes well worth their perusal. For reference, besides dictionaries, "The American Dictionary and Encyclopedia," is, though concise, very good. Some valuable works on history are at hand; especially deserving of attention is "Ellis' American History"—not equal to Fiske or Woodrow Wilson, and yet very good. Two sets stand out as superfine. They are "The World's Greatest Classics," in forty large volumes, and "Warner's Library of the World's Best Literature." In the "Great Classics" you will find "Oriental Classics" from India, Persia and China, "Classic Drama," ancient and modern, "Classic Oratory," of Greece and Rome, "Classic Essays" from Montaigne down, "Classics" from history, science and philosophy. To the writer it is one of the most valuable works I have ever examined. In Warner, which contains thirty-one volumes, you will find an epitome of the world's best thought from early dawn to the present day. Attention is called to two very helpful things for the busy man who wants to be somewhat in touch with the world's life and thought: First, the brief, but excellent histories of literatures from Egypt to English; second, the summary of every great book ever published. This is simply "a short road" to wide intelligence. The one weakness of the book collection is its fiction work, because of its absence. Some works, classic and current, are on hand, but a great need is good sets of Dickens, Scott, Eliot, et cetera. Will not some friend open his heart here for the sake of our young men and boys?

Papers and Magazines—Just a word here, please. Some thirty or forty papers find their way to the rooms. Secular and social are happily combined. Not the least are some of the "great dailies." The press is power.

Comfort—Last but not least the rooms are things of comfort and cleanliness—which cannot always be said of libraries and reading rooms. Young men, here you can find everything to help you spend in profit and pleasure an evening with the great. Welcome!

Dr. Taulbee has been ill with the grip this week.

L. B. Weisenburg, proprietor of the Royal Mills, of Frankfort, is absent from that city and no one knows his whereabouts. It developed Wednesday that he owes Frankfort banks \$52,500 borrowed on warehouse receipts which the banks say are practically worthless. Weisenburg collected \$5,000 just before he left.

An acre of pasture will not supply much more than one-fifth of the food required to support a cow through the growing months. One acre of corn will give all the green food it needs from the first of July to the first of October. On the same piece of land corn raised for soiling will make four times as much green food for a cow as will grass.

## ECONOMY

### Is What the Times Demand!

Money saved is the easiest money made. You may wear cheap clothing and be respectable, but you can't eat impure and unwholesome food and be healthy for any length of time. So when it comes to buying supplies for your table it is economy to buy the best. My annual CUT PRICE sale for CASH is now on, and when I say cash price that is what it is.

I am now rounding up my twenty-third year in Maysville. During that entire time I have worked hard and incessantly to build a trade for first-class goods and to establish and hold a reputation for honorable and fair dealing. My success in business has proved to me that I have not worked in vain. My business has steadily increased from the beginning. I intend to continue in the same old way. For your very liberal support you have my most sincere thanks, and I most respectfully ask for a continuance of same. I want country people when in our city to visit my store and make it their headquarters. You are always welcome.

Remember, I run two delivery wagons, and it is always a pleasure to deliver goods.

If you can't come to the store call up TELEPHONE 83.
